/PROJECT PROPOSAL FORM

I. Event Details

Title: Beyond The Prompt: Be an MVP at MVPs!
Date and Time: February 28, 2026, 1:30 PM - 4:30 PM
Venue: Bunzel Building, LB447
Project Head/s: Geri Gian Epanto
Contact Number: 09459824342

II. **RATIONALE**

This activity supports the following SDG(s):

[ ] **SDG 1**: No Poverty
[ ] **SDG 2**: Zero Hunger
[ ] **SDG 3**: Good Health and Well-being
[✔] **SDG 4**: Quality Education
[ ] **SDG 5**: Gender Equality
[ ] **SDG 6**: Clean Water and Sanitation
[ ] **SDG 7**: Affordable and Clean Energy
[✔] **SDG 8**: Decent Work and Economic Growth
[✔] **SDG 9**: Industry, Innovation and Infrastructure
[ ] **SDG 10**: Reduced Inequalities
[ ] **SDG 11**: Sustainable Cities and Communities
[ ] **SDG 12**: Responsible Consumption and Production
[ ] **SDG 13**: Climate Action
[ ] **SDG 14**: Life Below Water
[ ] **SDG 15:** Life on Land
[ ] **SDG 16**: Peace, Justice and Strong Institutions
[✔] **SDG 17:** Partnerships for the Goals

This workshop covers the rapid evolution of software development, moving beyond the buzzword of "vibe coding" into the disciplined practice of "Vibe Engineering." In an industry where code can be generated in seconds, the difference between a chaotic prototype and a deployed product lies in structure. We will explore the specific workflows, principles, and agent orchestrations required to tame powerful tools like Claude Code, OpenAI Codex, and Google's Antigravity. Participants will learn how to organize diverse AI tasks and establish a high-performing workflow that ensures operational success—turning the "vibe" of an idea into a human-engineered, functioning MVP in a matter of hours or even minutes. Whether you are preparing for a hackathon or looking to streamline your daily development process, this session provides a clear framework for bridging the gap between initial prompts and finished products.

This workshop is open to all USC students, especially those who are interested in the intricacies of AI-assisted software development. It will be a one-day event, which will happen on February 28, 2026, from 1:30 PM to 4:00 PM, and will be situated at the Bunzel Building, specifically LB447, located on the 4th floor.

This workshop also aligns with **SDG 4 (Quality Education)** by building AI competencies, **SDG 8 (Decent Work and Economic Growth)** by supporting future-ready skills, and **SDG 9 (Industry, Innovation, and Infrastructure)** by promoting the development and deployment of modern standard systems that align with industry-standard workflows and approaches. It also indirectly supports **SDG 17 (Partnerships for the Goals)** through collaborative and scalable AI workflows.

Ultimately, this workshop equips students with essential AI system skills and practical development experience, empowering them to turn innovative ideas into real-world solutions that support personal, professional, and sustainable development.

III. **OBJECTIVES**

1) **Master AI Orchestration:** Students will learn how to direct and manage AI agents to automate complex coding tasks like debugging and architecture design.
2) **Rapid MVP Development:** Students will be able to build and launch a functional Minimum Viable Product (MVP) in a fraction of the time using accelerated workflows
3) **Deployment Readiness**: Students will gain the skills to bridge the gap between a raw idea and a deployed application ready for real-world use.

IV. **PROGRAM**

Start Time: 1:30 PM
End Time: 4:30 PM

DAY 1			
TIME	**ACTIVITY**	**BRIEF DESCRIPTION**	**PERSON-IN-CHARGE**
1:30 - 2:15 PM	Agent Orchestration	Discussion of Coding Agent Best Practices and industry principles	John Andre Yap
2:15 - 3:00 PM	LLM-Assisted Software Development	Demonstrating rapid Prototyping with Copilot	Geri Gian Epanto
3:00 - 3:30 PM	Practical Machine Learning	Machine Learning Concepts explained in practical applications	Nick Anthony Miras
3:30 - 4:00 PM	Distribution of snacks and cleanup	Distribution of snacks and cleanup	GDG USC Core Team
4:00 - 4:30 PM	Cleaning Up	Ensure that the area is clean and ready for turnover	GDG USC Core Team

V. BUDGET PROPOSAL

Source of Funds: ____GDG Organizational Funds_____

INCOME	ESTIMATED COST
FOOD	
Snacks	Php 1000.00
Total	**Php 1000.00**

Prepared by:

Ethan Andre Dalocanog
Secretary

Noted by:

Geri Gian Epanto
Project Head
